

IN THE UNITED STATES DISTRICT COURT  
FOR THE NORTHERN DISTRICT OF CALIFORNIA

MARGIE CHERRY and ESTORIA  
CHERRY on behalf of themselves and all  
others similarly situated,

Plaintiffs,

v.

THE CITY COLLEGE OF SAN  
FRANCISCO, *et al.*,

Defendants.

No. C 04-04981 WHA

**SECOND ORDER  
REQUESTING  
SUPPLEMENTAL  
INFORMATION  
REGARDING  
LIGHT SWITCHES**

This is a second follow-up order to the first follow-up order regarding the light switches. Both sides shall please answer all of the following under oath by **NOON ON DECEMBER 22, 2010**. Each submission shall repeat the questions and shall be limited to five pages.

1. Is the amended stipulated judgment still in effect? By its terms, the judgment was deemed effective on May 1, 2006 and continued for a period of four years thereafter; by separate order, its terms were extended through October 1, 2010. The judgment provides that this court “shall maintain continuing jurisdiction over this lawsuit for the length of this Stipulated Judgment and Order” (Dkt. Nos. 676, 855). Defendants assert that “the effective and binding term of the Judgment expired on October 1, 2010” (Br. 2), but plaintiffs contend that “[t]his Court retains

1 jurisdiction to enforce the deadlines in the Judgment” (Opp. 7).

2 Please cite authorities on point. (This question concerns more than  
3 light switches.)

4 2. State whether or not the light switches were in violation of  
5 the consent judgment in the first place.

6 3. State whether the consent judgment imposed a duty (as  
7 opposed to a right) on plaintiffs’ counsel to stay on top of all remedial  
8 issues and to resolve them seasonably.

9 4. If plaintiffs’ counsel had no duty to do so, what was the  
10 point in paying counsel fees to monitor the remediation?

11 5. Page 5 of the defense reply memo (Dkt. No. 895) states:  
12 “Class counsel agreed at the December 2009 meetings that instead of  
13 lowering all light switches . . . the District could install motion detectors.  
14 The district installed motion detectors . . .”. Later on in the reply (page 7),  
15 defense counsel say it was Attorney Wallace who made this alleged  
16 agreement. Attorney Wallace now denies any such agreement under oath.  
17 Defense counsel shall file a declaration stating precisely what was said on  
18 this subject at the December 2009 meetings.

19 6. Both sides shall answer under oath: what  
20 contemporaneous notes, letters, or emails substantiate this statement (or  
21 absence of such a statement)?

22 7. Both sides shall provide to the Court notes and/or records  
23 of the December 2009 meetings bearing on light switches taken by all  
24 participants with declarations authenticating each.

25 8. Defense counsel imply that class counsel affirmatively  
26 agreed that lock boxes were unnecessary. Do defense counsel really  
27 assert this or do they merely mean lock boxes were not discussed one way  
28 or another?

9. The motion and reply papers filed by defense counsel left the distinct impression that the motion sensors were installed in reliance on an agreement with plaintiffs' counsel. In this regard, see the above quotation and page 7 lines 22–23 and 26, and page 8 line 3 of the reply plus page 5 lines 25–28. Now it turns out that virtually all of them were installed much earlier in 1996. Please state where in the motion and reply papers (or opposition papers) the Court could have learned that the motion sensors were actually installed long ago (save for a handful of recent installations)?

**IT IS SO ORDERED.**

  
WILLIAM ALSUP  
UNITED STATES DISTRICT JUDGE
